Tutorial No : 12

Tutorial Title: Write a C++ program which demonstrates use of namespace in the program.
Name of Student: Shweta Lohakare
Class: SY **Div:** 2 **PRN No:** B25ET1099 **Batch:** B2

Program:

```
#include <iostream>
using namespace std;
namespace Arithmetic {
   void show() {
      int a = 10, b = 20;
      cout << "Arithmetic namespace: " << a << " + " << b << " = " << (a + b) << endl;
   }
}
namespace Geometry {
   void show() {
      int length = 6, breadth = 4;
      cout << "Geometry namespace: rectangle area = " << (length * breadth) << endl;
  }
}
int main() {
   Arithmetic::show();
   Geometry::show();
  return 0;
}
```

Output:
